# Project Sources and Types

- **Where can you find a project that's right for you?**
- **Based on a review of over 175 projects done in 2009 - 2011**
  - Projects were not specific to Troop, or Troop's area of the District
  - About 70% were from 3 "sources"
    - Organizations: 29%; Churches: 23%; Town parks: 19%
    - 5 other "sources" split the remaining 29% (4 – 8% each)
  - Best way to 'find' a project – let everybody know you are looking for one! Have the adults you know ask around. Follow up yourself – estimate if it is feasible. Negotiate!
  - Figure that your project work will actually get started 3 – 4 months from the first time you hear about it – plan accordingly.
  - Mega-size and Expensive Projects are not of high value.

# Eagle Scout Service Project

- **Guidelines**

- Provide opportunity for planning, development, and leadership
- Projects must benefit any Religious Institution, any School, or your Community, (including 'Community of the World' ) 9.0.2.5
- Projects must not be
  - of a commercial nature or for a business
  - only routine labor or only a fundraiser
  - joint projects – only one Eagle candidate can receive credit for a project – similar but not overlapping projects are allowed.
  - performed for the BSA, its councils, districts, units, or its properties
- Details are given in the Workbook itself. Refer to Pg 4.

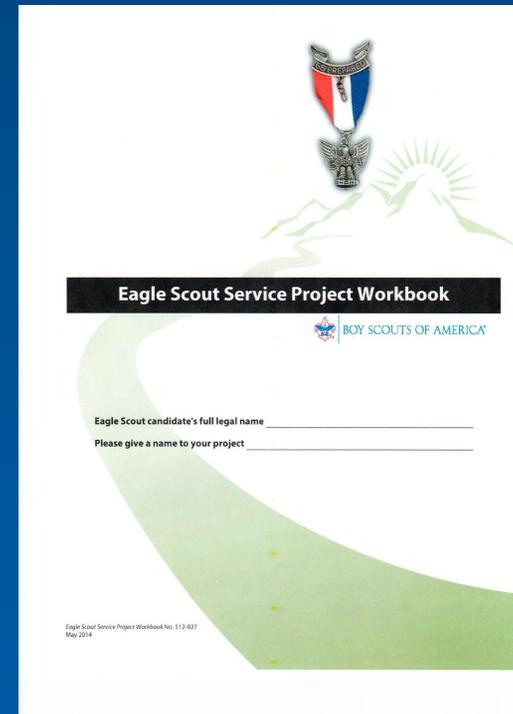

# Eagle Scout Service Project (cont)

## – Project Proposal

**Eagle Scout Service Project Proposal**

BOY SCOUTS OF AMERICA

Eagle Scout candidate's full legal name \_\_\_\_\_

Eagle Scout Service Project Name \_\_\_\_\_

**Eagle Scout Requirement 5**

While a Life Scout, plan, develop, and give leadership to others in a service project helpful to any religious institution, any school, or your community. (The project must benefit an organization other than Boy Scouting.) A project proposal must be approved by the organization benefiting from the effort, your unit leader and unit committee, and the council or district before you start. You must use the Eagle Scout Service Project Workbook, No. 512-927, in meeting this requirement.

- Page A starts off with 5 tests for an acceptable project, and has other good advice
- Page B requests Contact Information – knowing who these people are is very useful
- Pages C through E contain sections that allow you to describe different aspects of your Proposal – read ahead, follow the hints and definitions by each section, separate your ideas into the different sections, describe your proposal as smoothly as you can.
- Consider all sections – indicate Not Applicable (N/A) when true
- Include sufficient details to convince your leaders and Proposal approvers that you are ‘good to go’.
- Include pictures and sketches/drawings if useful

# Proposal Considerations

- **Project Description and Benefit**
  - Addresses 3 topics: What, How/Why, and When.
  - The fillable PDF will allow you to write a lot more words than you might expect. The boxes will expand as needed.
  - The first box asks for a Brief description. Brief does not mean fact-free. Approximate measurements can explain to the reader why you are about to say that lots of workers and tools and dollars are involved.
  - Respect the separation of topics among the three boxes.
  - Take pictures, make drawings, convey the idea of your proposal in more than just words.
  - Put titles on the pictures!

## Proposal Considerations, cont.

- **Project Description and Benefit – When:**
  - Experience shows that Proposal creation and local approval and District approval take longer than many Scouts expect.
  - We recommend multiple weeks after proposal approval as intended time to begin actual work on project.
  - You are supposed to work with your Project Coach and figure out and fill in the next Workbook section, the Plan, before you start.
  - If needed, you need to get Fundraising Application approval before you start.

## Proposal Considerations, cont.

- **Giving Leadership**
  - The difficulty you see may be a good reason for a Project Coach.
- **Materials, Supplies, Tools, Other Needs**
  - Each of these sections has a definition – those can help you keep the section’s contents unique, rather than repeating items.
  - Notice that they ask for ‘Types’ and ‘Kinds’ – think of the signs that hang over the aisles in places like Williams and Lowe’s and Home Depot – those generic names may be the answer.
  - If it helps, use Project Plan pages B & C to write down just the names of specific items – then talk with your Project Coach about ‘Types’ and ‘Kinds’.

## Proposal Considerations, cont.

- **Permits and Permissions**
  - Make sure that the Benefiting Organization Representative has the authority to say 'Yes' for his organization.
  - Note: Schools and Town Governments have layers of bosses.
- **Preliminary Cost Estimate**
  - Ask knowledgeable people what they think things will cost, or
  - Shop for the items you think will cost the most (the big 80%), and add another 25% for the less costly items.
- **Fundraising**
  - After you fill in those estimated costs, remember to answer the question: Where will you get the money?

# Proposal Considerations, cont.

- **Project Phases**

- The text in the box itself is kind of the answer: translate ‘preparation’ into the main steps that mean ‘ready to lead your project’
- Translate ‘execution’ into the main steps that mean ‘order in which things will get done’

- **Logistics**

- While Dad may have a new truck, it may not be designed to move 6 cubic yards of stone weighing 2700 pounds each....
- An old form, the “Tour and Activity Plan” is no longer needed. You still have to pay attention to the ideas contained in the “Guide to Safe Scouting”.

## Proposal Considerations, cont.

- **Safety Issues**
  - National Scouting literature sets standards for tool safety. The BSA's standards limit what Scouts can do. Those limits should be considered up front when you ask "Is this project feasible?".
  - Dutchess has a severe local health concern, that of tick-borne Lyme Disease; as a leader, you should advise about precautions and examination by yourself and your parent.
  - Here in Dutchess, we have E911 emergency response coverage. As a leader, you have to know what help it offers and what its limitations might be.

## Proposal Considerations, cont.

- **Project Planning**
  - “List some action steps (toward) a Project Plan” can be translated into “What do I need to learn or do to create my Project Plan?”.
  - In Engineering circles, this kind of activity is sometimes called ‘creating a plan for a plan’. It can be hard work!
- **Candidate’s Promise**
  - Being ready to sign is the important part. Have you read all of the workbook ? You can learn helpful things by doing that.
- **The Approvals**
  - These Approvals are serious declarations of support and approval by the signers. Expect them to take time and ask questions about what they are signing – you want that help.

# Workbook Sections, cont.

- **Fundraising (if needed)**

- Read Fundraising Application page B (the rules) carefully.
- Follow BSA standard rules regarding earning money.
- (Parts of) Projects paid for by certain payers are exempt from Approval.
- Support from other payers or donators of either money or materials is defined as fundraising, and must be approved.
- The Eagle Project Fundraising Application (page A) is not the same form as a Unit Fundraising Application.
- The Application requires you to attach a good-faith list of potential donors and the type of donations being sought.

**Eagle Scout Service Project Fundraising Application**

Before completing this application, it is important to read "Procedures and Limitations on Eagle Scout Service Project Fundraising." This can be found on the next page: "Fundraising Application Page B." Once completed, you must obtain approval from the project beneficiary and your unit leader, and then submit the fundraising application to your council service center at least two weeks in advance of your fundraising efforts. You will be contacted if it cannot be approved or if adjustments must be made. Use this form, not the Unit Money-Earning Application.

- **Fundraising, continued:**

- Application must be approved before fundraising starts.
- It can be approved by the District if less than \$500.

**Contact Information**

Example: Scout candidates should know who is involved; but contact information may be most important to unit leaders, unit committees, project beneficiaries, and council or district approval representatives in case they want to talk to one another. While it is recognized that not all of the information will be needed for every project, Scouts are expected to provide as much as reasonably possible. Approval representatives must understand, however, that doing so is not part of the event project requirements.

- Project Plan (not required, but strongly recommended)
  - Seen as proof of your leadership
  - Having a Project Coach is encouraged.
  - Read GTA2017 Section 9.0.2.9 for a description of the role and value of a Project Coach. Scouting wants you to succeed in your Project. A good Project Coach is important to have as a “voice of experience”.
  - It’s your project : you make the decisions – but you don’t have to go it alone; you can have a Project Coach.
- Project Report (required)
  - Keep a separate list of people and hours for unit service hour credit.

# Service Project Proposal Approval

Project Proposals must be approved **before** starting work

- Unit Leader
  - Unit Committee Member
  - Beneficiary Representative
  - (last) District Eagle Advancement Committee
- District Proposal Approvals
- Send workbook as e-mail attachment to Mr. Duff
  - Your Troop leaders have a handout which lists the dates when your workbook is due in for pre-review, and when the formal District Review will occur. No District Review is held in July.
  - Are by appointment – the schedule is sent out by e-mail on prior Sunday night, often around midnight. Your unit leaders have details of the process. If you have questions, ask them first.

**Logistics** Check with your council service center to determine if a Tour and Activity Plan is required. How will you handle transportation of materials, supplies, tools, and helpers? Will you need a Tour and Activity Plan?

**Safety Issues** The Guide to Safe Scouting is an important resource in considering safety issues. Describe the hazards and safety concerns you and your helpers should be aware of.

**Final Planning** You do not have to list every step, but it must be enough to show you have a reasonable idea of how to complete a final plan. List some action steps you will take to complete a final plan. For example "Complete a more detailed set of drawings."

**Candidate's Promise\*** Sign below before you seek the other approvals for your proposal. On my honor as a Scout, I have read this entire workbook, including the "Message to Scouts and Parents or Guardians" on page 5. I promise to be the leader of this project, and to do my best to carry it out for the maximum benefit to the religious institution, school, or community I have chosen as beneficiary.
